RESPONSE TO REQUEST FOR CORRECTED FILING RECEIPT

Title of Invention

In response to your request for a corrected Filing Receipt, the Office cannot comply with your request because:

The articles such as "a", "an", and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title. The words "new", "improved", "improvement of", "improvement in", or "improvement relating to" are not included as the first words in the title of an application because a patent application is, by nature, a new idea or improvement. See MPEP 606. The title may be truncated if it consists of more than 500 characters (letters and spaces combined). Superscript and subscript are not possible. These characters will appear on the same line. The title appears on the filing receipt in sentence case for publication in the Annual Index of Patents. The title of the invention was captured as provided by applicant on the first page of the specification. An amendment is needed to make this change. (See MPEP 605.02.)

The symbol that you have requested as part of the title cannot be captured as presented. It has been

captured as written text.
